

JYSK STANDARD

Care labels

Scope

This standard describes JYSK requirements for care labels.

Change-log

Section	Changes
1	Morocco-importer information must be in continuation of the Arabic product information and “made in [country of origin]”. Care label examples update accordingly. UK-Importer information must only be on care label if there is no other sales packaging, e.g. hangtag, clamp.
1 & 2	Care label examples are updated according to above.

1 Care labels

All textile based products must have a care label.

Care label layout must comply with [JYSK 6201](#).

The care label must unless otherwise specified be double printed and as short as possible.

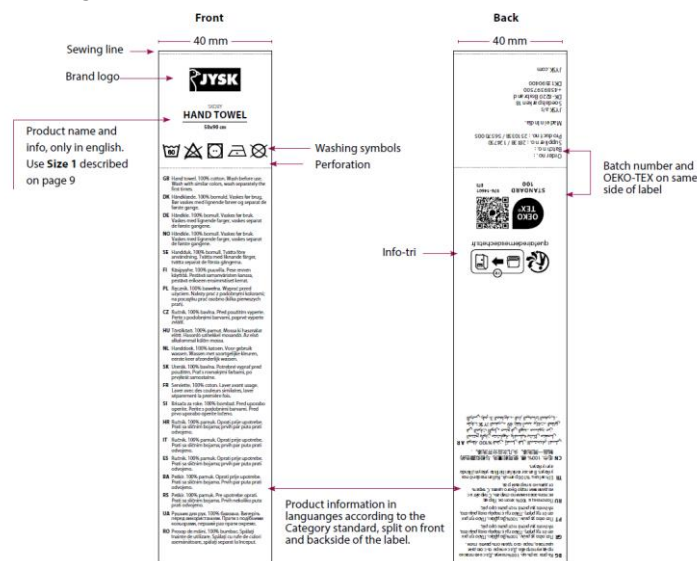

Care labels must contain:

1. Brand logo
2. Product name and info in English
3. Care symbols according to [1.1](#)
4. Information in text in *all languages* according to [JYSK General Requirements](#):
 - Product type/info
 - Fibre composition in % and specification of other materials in accordance with [JYSK 4004](#).
 - Shrinkage in % if more than 5% from nominal dimension.
 - Additional care instructions in text in accordance with [1.2](#):
 - The sentences "Wash before use" must be added if the product is within below categories:

Note: Other product types can be labelled with "Wash before use" if agreed with [CAM](#).

 - Bed linen
 - Sheets
 - Towels and face cloth
 - Dishcloths
 - Tea towels
 - Table cloths
 - Clothing; like bath robes, underwear, t-shirts and stockings.
 - The sentence "Wash together with similar colors" must be added if the product is washable.
 - In accordance with [JYSK 6101](#) the Arabic product information must include:
 - "made in [country of origin]" in Arabic language. It must be placed in continuation of the Arabic product information.
 - **Morocco-importer information must be in continuation of the Arabic product information and "made in [country of origin]"**.
5. The care label must include *product labelling* in accordance with [JYSK 6101](#).

Note: UK-importer information must only be on care label if there is no other sales packaging, e.g. hangtag, bellyband, clamp.
6. Barcode in accordance with [JYSK 6101](#) if required.
7. OEKOTEX label as applicable according to [JYSK General Requirements](#).
8. TRIMAN symbol in accordance with [JYSK 6101](#).
9. Any additionally required or agreed information.

Example of care label layout – See [JYSK 6201](#) for better resolution

1.1 Care symbols

Care label symbols must be according to **EN ISO 3758**. The symbols are available as [JYSK 10070](#).

		Do not iron
 Professional textile care		Mild process
		Very mild process
		Cleaning in Tetrachloroethene and all solvents listed for F
		Cleaning in Hydrocarbonans
		Professional wet cleaning
		No wet cleaning
		Do not dry clean

Symbol examples – Do not use!

1.1.1 Use of symbols

The symbols must appear in the order washing, bleaching, and drying, ironing and professional care.

These 5 treatment instructions are mandatory. Additional drying and professional care symbols may be added if necessary. For further instruction, contact [JYSK C&Q](mailto:Compliancequality@JYSK.com).

If all the 3 treatment symbols below are crossed (not drying and ironing), another relevant treatment must be recommended (E.g. "Spot cleaning only") in *all JYSK languages*.

1.2 Instruction texts

The use of other additional words may be necessary to avoid any harm to the product.

The number of additional words in the label must be kept to a minimum.

- remove ...before washing	- professional leather clean only
- wash separately	- no optical brighteners
- wash with like colors	- use wash net
- wash before use	- do not steam iron
- wash inside out	- steam only
- do not wring or twist	- do not soak
- damp wipe only	- steam iron recommended
- do not add fabric conditioner	- dry away from direct heat
- remove promptly	- reshape whilst damp
- iron reverse side only	- line dry
- do not iron decoration	- reshape and dry flat
- use press cloth	- drip dry
- dry flat	- dry away from the sun
- The washing machine must load at least xx kg.	

Examples of additional wording

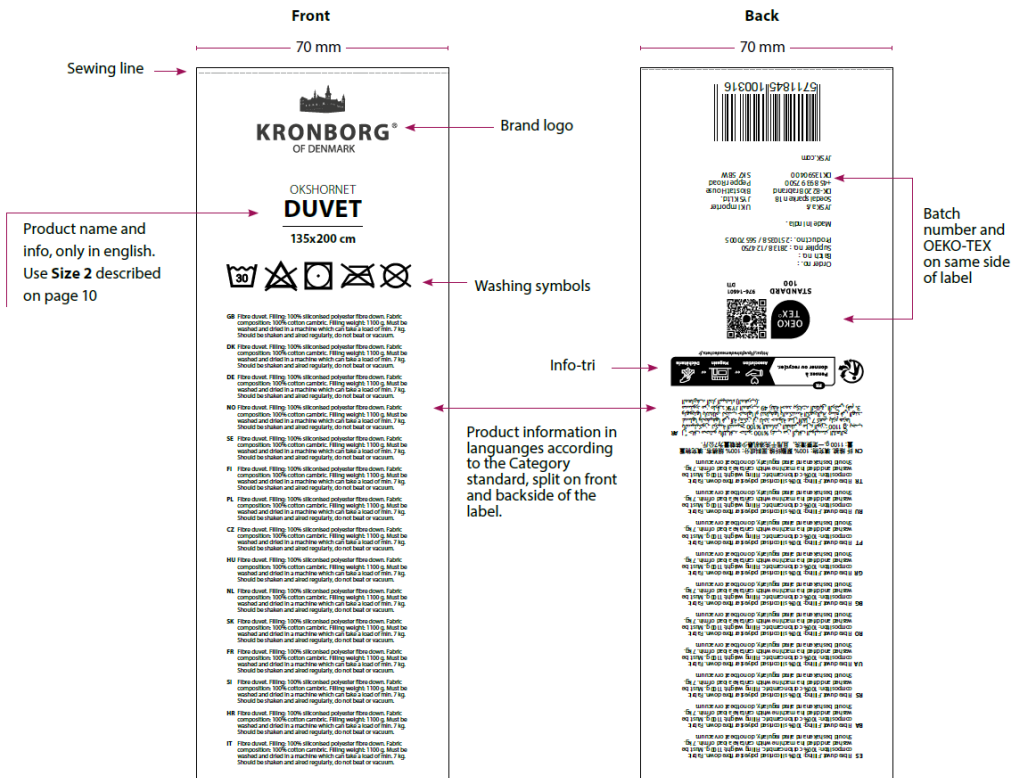

2 Care label layouts for duvets and pillows

For duvets and pillows the care label is also a product information label.

Languages must comply with [JYSK 1008](#).

Care labels for duvets and pillows must additionally (to the requirements in chapter [1](#)) contain the following information:

- For natural filling, the “filling power line” must be mentioned.
- If needed - information about standards:
For naturel filling: EN 12130 - EN 12131 - EN 12934.
- The fill weight in grams. After care.

Example of care label for duvet – See [JYSK 6201](#) for better resolution.

2.1 Specific requirements for products to UK and Ireland

Duvets and pillows must have the following on care labels:

- On duvets: “Single”, “Double”, “King” or a “Super King”.
- TOG value.

See [JYSK 4002](#) for FR requirements.
